Stay, in love
I rather stay in love
I know my mind is made up
So what am I so afraid of
Stay, with me
I rather you stay with me

You can added to the nights
That we've stolen
Right here we can stay frozen
I can see the end but I'm holding
I can see the end but I'm holding

We Move across the sand
It's building pressure on the glass, I shatter
The burning in my hearts
I'm aching, I'm aching

Stay, wish I could stay in love with you
(You can added to the nights)
(That we've stolen)
(Right here we can stay frozen)
Stay, wish I could stay in love
(You can blame it on the love we've chosen)
But right here we can stay frozen

Fade, away
I'm not gonna fade away
If it crashes in america
Do we stay true or we make it all
Don't let it fall, away
I know that we made mistakes

You can blame it on the live
That we've chosen
Right now we can stay frozen
I can see the end but I'm holding
I can see the end but I'm holding

We Move across the sand
We drifting pressure on the glass, I shatter

The blood is on hands
I'm aching, I'm aching

Stay, wish I could stay in love with you
(You can added to the nights)
(That we've stolen)
(Right here we can stay frozen)
Stay, wish I could stay in love
(You can blame it on the love we've chosen)
But right here we can stay frozen

Stay, wish I could stay in love with you
(You can added to the nights)
(That we've stolen)
(Right here we can stay frozen)
Stay, wish I could stay in love
(You can blame it on the love we've chosen)
But right here we can stay frozen

Stay, wish I could stay in love with you
(You can added to the nights)
(That we've stolen)
(Right here we can stay frozen)
Stay, wish I could stay in love
(You can blame it on the love we've chosen)
But right here we can stay frozen
