I don't need your support
It ain't nothin' to me!
I just wanna take,
my chance to living free!
I just wanna ride
A horse made of steel!
You can't hold me down
Cause I want it for real!

It's time to break all chains
Come wear some leather!
Take your metal machine!
Come back in saddle!
I got wind in my hair!
Engines working hard!

Hear Raging Metal
And start the freeway ride!

Run down the highway
Live for the sound
Of heavy metal
While engines screaming loud!
Big wheels are rolling!
No time for sleep!
Another town
Waitin' for me!
