coming down the dirt road through the town tonight
there is a crowd around i can feel it breathe
more than a thousand souls out in the night
i get so blinded i can see

smoke is rising from the fire that burns
sky is purple and the water rise
people talking quiet as they start to learn
to see with their own eyes

their lives and our lives different as any other
my pain is your pain tell me, do you want to go under?

you will feel it when the night starts burning
feet shuffle on that day
when we're going to find what we're going to be
fighting

come again
you will feel it when the night starts burning
makes you want to stay
light will fill your eyes

we got the seeds of life
hidden in our hands
blinded by ourselves though can't you see that
we've got the seeds of life do you understand?
and hear the calling

you've got love though
love we got inside
it's time to open our eyes and really wonder
and really wonder
if it's enough for all we need in life
can you take me back, can you take me back?
