Oh, this life's too long  
If she belongs to the arms of the ocean I'll forget her  
But she's something  
She's something  
She's something special

We need more time to live or die  
Her love was mine, we need more time

Oh could I be wrong ?  
And could it be that her arms are wide open, I'll forgive  
her ?  
Because she's something  
She's something  
She's something special

We need more time to live or die  
Her love was mine, we need more time

Let's move away before we get older  
Before we grow old  
Before we grow old

What use is love when your heart  
Leaves you lonely  
It just leaves you lonely  
It just leaves you cold

But she's something  
She's something  
She's something special

We need more time to live or die  
Her love was mine, we need more time  
More time  
More time  
More time  
More time
