Can you feel my beat motion?
I wanna make you my sacrifice

To the left
To the right
To the target
Go ahead
Until you bring her down
I'm running down to the end
Don't let her go away!
She is an easy prey
Under the law of nature
You can not compromise
For the blood you can't deny
You're hunting in the dark
I got the fangs
To suck your blood
I want it now
Accept my rave
I want your blood
I can't stand it
I distract my wants
To smoke a cigarette
