Kill me now because i am lonely  
I can hear a thousand songs  
Singing in salvation  
Shouting at the world

As my soul begin to journey  
I can see the sun and glory  
Dancing with desire  
And blast me with the light of love

Kiss me now because i am lonely  
I can see a tears of hunger  
Open up your eyes  
Open up your heart

And i lost for your love till i die [2x]  
No no..

And now  
Since you in my hand  
Wake up now i am feel the same  
Feel the same  
As one

Wake me up  
There are sign  
There are sign  
Tonight

Tonight..
