You make me feel like I  
Can do anything babe  
But all I wanna do is stay here with you forever my love  
And if I have to leave your side  
I'll be back as soon as I  
As I can get back to you because I'm missin' you before  
I even walk out the door and leave

(You got the kind of love that)  
Makes me feel foolish about how much I want it  
(You got the kind of love that)  
Makes me feel so good, I'm beyond happy with you

And to think before I first met you  
I thought I knew true love but  
It wasn't even close to the feeling I felt the first moment  
that we met  
And I'm still astounded by  
The fact that you wanna be with me when  
Its so obvious to me you're so beautiful baby  
Clearly out of my league

(You got the kind of love that)  
Makes me feel foolish about how much I want it  
(You got the kind of love that)  
Makes me feel so good, I'm beyond happy with you

(You got the kind of love that)  
Makes me feel foolish about how much I want it  
(Foolish)  
About how much I want it  
(Foolish)  
I'm beyond happy with you

(You got the kind of love that)  
Makes me feel foolish about how much I want it  
(You got the kind of love that)  
Makes me feel so good, I'm beyond happy with you
