Been in a good mood - all day long  
Despite bein' up all night  
I got a smile inside - I can't hide  
Because my baby came to see me last night

Now I'm not tryin' to brag or rub it in  
To make you feel bad is not my intent  
But last night  
I had one hell of a time

I finally seen my baby last night  
She loved me so good just wanna tell everybody

Still goin' strong - Despite bein' up all night long  
I got a secret I wanna shout to the sky  
You know my baby came to see me last night

Now I'm not tryin' to brag or rub it in

To make you feel bad is not my intent  
But last night  
I had one hell of a time

I finally seen my baby last night  
She loved me so good just wanna tell everybody

LEAD

Now I'm not tryin' to brag this is legit  
Ooh wee little mama you are the shit  
But last night was so intense  
I wanna do it again

I finally seen my baby last night...
