There is a reason why  
I keep to myself - I don't go nowhere  
That's because  
I used to run wild - I never gave a care

And then one day I fell in love  
And everything was fine  
Until the day that she walked out of my life and broek  
my heart in two  
Well that was long ago  
But everyday the Blues is Brand new

I barely socialize  
I chill in my crib - I'm usually there  
All the time  
I used to run the roads - until the A.M.

And then one day I fell in love  
And everything was fine  
Until the day that she walked out of my life and broek  
my heart in two

Well that was long ago  
But everyday the Blues is Brand new

It carries over - Day after day after day  
I try to ignore  
The fact that my heart is in pain  
But the blues don't change

LEAD

And then one day I fell in love  
And everything was fine  
Until the day that she walked out of my life and broek  
my heart in two  
Well that was long ago  
But everyday the Blues is Brand new
