I really wanna try to help you out
and if you knew I didn't why did you never try to settle
down
and time is lost, now you'll never know what's after now
but I know it doesn't matter cause this is not important
what should you be learning?

right from wrong, good from bad
safe from harm and out of doubt

yeah I gotta few mistakes and I wanna shake em off to
you
no I didn't mean it
that's cause I wouldn't even
for a light to hold on
please forgive a giver and replace a ticket, cause of
you its gone
you know how it is
you simply replace you gotta know what you've learned

right from wrong, good from bad
safe from harm and out of doubt
