Your words, cruise right past my hears like birds  
With no sense of direction. I  
Fail to find a meaning or a point  
There's just no connection

You waste my time going nowhere with your speech  
Like you're so above me  
All this is  
A meteor convincing me he's a planet

You're just as small to the universe as me  
I wish your eyes could see all the things I see  
When push comes to shoves I will burn you like a match  
Beware, beware... You won't last

Your life feeds on good Samaritans but I

Am not working two jobs. I  
Quit the day you started selling lies  
For your own protection

You waste your time putting pressure over me  
I have sent you free  
All this is  
A meteor convincing me he's a planet

You're just as small to the universe as me  
I wish your eyes could see all the things I see  
When push comes to shoves I will burn you like a match  
Beware, beware... You won't last

You can say what you will cause it doesn't mean a thing  
to me  
You can say what you will cause it doesn't mean a thing  
to me
