

## Eleven Drive "Midnight Carnival"

Visit "[Midnight Carnival](#)" on [MotoLyrics.com](#)

I don't like taking walks at night  
when the werewolves howl  
and leave me in fright  
and I know  
that this is all imaginary  
in this place only I can see

Take me away from lonely nights  
where we can suddenly change everything  
but for now we are just watching  
the midnight carnival lights

one afternoon I was strolling about  
when a traveler from afar  
came stumbling on out  
and he said  
to turn around because it's not safe  
it's not safe

earlier that day there was a forecast of rain  
but I took my chances and went anyway  
I took my chances anyway

Take me away from lonely nights  
where we can suddenly change everything  
but for now we are just watching  
the carnival lights

Take me away from lonely nights  
where we can suddenly change everything  
but for now we are just watching  
the festival lights
