Verse1

Trust me when i say , you will cry
Stop to be mean with your God
Stop to be pathetic with your life
Look at you on the mirror and try to change
World is whack and great for you
I can't understand where is the joke
Some people live the poverty
No one can fix this reality

Chorus

contradictions in logic
contradictions in public

Verse 2

Countless mistakes you did
Even if you thought was right
Dig your trench if you think
Is it the best choice you ever made
Many troubles try to collapse you
This is a big game without premium
Everything sometime seems absurd
Absurd is your life on the roof
