Held in a daze, the warmth I crave  
And you're still so far away  
Though for you I'll gladly wait, I'll gladly wait  
Straight through the grandest storms I've braved  
I am strong and if I make it  
Darling will you let me stay?

I'll find a way to you  
In this fragile state you're all I'm thinking of  
I know you want me too  
In this idle love

Dark shades, a haze, you're brightening  
Tones of grey that cover me  
Now you're gone they're all I see, they're  
all I see  
Dull, restless time that fuels the fire  
Guns a-blazed, for you I'll fight  
Still I'm frightened all the while

I'll find a way to you  
In this fragile state you're all I'm thinking of  
I know you want me too  
In this idle love  
Can you feel my desire?  
Burning for you now it's all I'm thinking of  
Are you growing tired of this idle love  
Of this idle love

This plastic sky sometimes is nothing to what it was  
with you  
I'm all yours alright, to hold me back is  
Something you could never do  
Never do

I'll find a way to you  
In this fragile state you're all I'm thinking of  
I know you want me too  
In this idle love  
Can you feel my desire?  
Burning for you now it's all I'm thinking of  
Are you growing tired of this idle love

Can you feel my desire?  
Burning for you now it's all I'm thinking of  
Are you growing tired of this idle love  
Of this idle love  
In this idle love
