I predicted this
do you know me at all?
It's ended just like
you said it would end
with the cold

Season's change
can war harder than me
because they belong
I put up a good fight
but I'm not that strong

I felt you shifting
I felt you gone
Lost you to autumn

Step on twig
after freezing twig
in the last summer squall

and I bet you're just fine
oh what am I?
I'm just bones and body

I felt you shifting
I felt you gone
Lost you to autumn

What I'd give to turn it off
why am I somebody else?
What I'd give to make it stop
Let it torture someone else
Love itself

I felt you shifting
I felt you gone
Lost you to autumn
Lost you
oh, oh
