Put your hand in mine, put your hand in mine  
Feel the shiver run, right down your spine  
Feel the deepest kiss, makes you feel like this yeah  
yeah

Now you can't feel me, (you can't feel me)  
You can't see me, (you can't see me)  
Do you know who you are  
Your my guiding star yeah

Get me through the heart of the freeway  
Now lets go see the lights, go see the lights of the city  
yeah  
And through the cold and rain (the rain)  
You can feel my pain (pain)  
Now lets go see the lights, go see the lights of the city

Guitar

Just like magic you, just like magic  
You appear then you leave, this story I'm telling  
You just wont believe yeah yeah

Now you can't feel me, (you can't feel me)  
You can't see me, (you can't see me)  
Do you know who you are  
Your my guiding star yeah

Get me through the heart of the freeway  
Now lets go see the lights, go see the lights of the city  
yeah  
And through the cold and rain (the rain)  
You can feel my pain (pain)  
Now lets go see the lights, go see the lights of the city

Now lets go see the lights, go see the lights of the city

Now lets go see the lights, go see the lights of the city
