So it's time for me to leave  
One more night and I'll be gone  
Although it's hard to believe  
Another era now done  
So remember me the way I am  
I'll keep you your smile with me

So thank you and goodbye  
I've had the time of my life fairwell  
I hope you find your way  
So thank you and goodbye  
I've had the time of my life fairwell  
I hope you find your way

So it's time for me to leave  
One more night and I'll be gone  
Although it's hard to believe  
Another era now done  
So remember me the way I am  
I'll keep you your smile with me

So thank you and goodbye  
I've had the time of my life fairwell  
I hope you find your way  
So thank you and goodbye  
I've had the time of my life fairwell  
I hope you find your way

Fairwell I hope you find your way

Fairwell I hope you find your way
