Finally alone, I wanna let you know
In the commin hour I'm here with you
No one knows, only you and I
In the commin hour you and I will die

Two rounds will break the silence
Four eyes will shut
Two rounds will break the silence
Four eyes will shut

Don't tell me, I already know
You don't have to explain
I know what to do life took a turn
Down that darkened road
We both knew it would come to this

Two rounds will break the silence
Four eyes will shut
Two rounds will break the silence
Four eyes will shut

It's been growing like cancer
And we feed it every day
In all insanity it's all so clear
I have to execute to end all the fear

Two rounds will break the silence
Four eyes will shut
Two rounds will break the silence
Four eyes will shut
