"Cup Half Full"

Visit "[Cup Half Full](#)" on MotoLyrics.com

I'm shoulder side, forth of July
Vacationers are passing by
Pin-up maps, cartography
I'm letting go with no boundaries
I thought say that I'm throwing caution at the wayside
With no respect for life in general

I thought I'd say I'd live my past regrets today
With everything I had to say
You know you've got me figured out
With no cautions to slip away and everything I had to
say
You know you've got me figured out

"We should live like there's no end
I've heard it all before
Don't come around with hand-me-downs
I've been left in this place to rot and die
I'm floundering and don't know why"

"You can't tell me that you try harder than everybody
You learn to live with your mistakes then you try harder
To say the wrong things then you'll go farther than
everybody."
