You were the one I would have stayed with
I would have spent a thousand days with
But you were determined to
Keep me from loving you

[CHORUS]

We could be startin' somethin'
I should be holdin' you right now
We could be startin' somethin'
Love we shouldn't be without
But if we started somethin'
(But if we started somethin' babe)
Cause I would want this more than just tomorrow

While my feeling's were growing stronger
You didn't want this any longer
That's when I realised
You were leaving me behind

[Chorus- repeat]

[BRIDGE]

(I'd be there for you)
If you opened your heart
And gave love a chance
(We still could be)
Startin' somethin' bigger than you and me

I'm still determined to
Show you what our love could do

[Chorus- repeat]

(We could be startin' somethin'...startin' out)
Be startin' out babe
(We could be startin' somethin'...startin' out)
Be startin' somethin' babe
(We could be startin' somethin'...startin' out)
We could be startin' somethin'
