Visit "[Save Me](#)" on MotoLyrics.com

Save me, before I give up
I can't stand, my own reflection
Help me see, my own true feelings
Guide me through, my darkest hour (help me!)

Fight (fight)
Fight alone, fight forever
Fight (fight)
Fight for it
Fight (fight)
Fight alone, fight forever
Fight (fight)
Fight for it all

Guide me, away from sorrows
My life starts, when you are near me
I will fight, against the sickness
In my life, I need assistance (help me!)

Fight (fight)
Fight alone, fight forever
Fight (fight)
Fight for it
Fight (fight)
Fight alone, fight forever
Fight (fight)
Fight for it all

Fight (fight)
Fight alone, fight forever
Fight (fight)
Fight for it all
Through the lies, in disguise
Fight (fight)
Fight for it all
