Was we meant to be? or just another memory?
Deep down inside I could never see us separated
But it came to be,... somehow
I miss looking in your eyes right before we kiss
now what is this
you act like you don't want to see me no more
no goodbye's just break it off
leave me feeling like a preacher who lost his
congregation
I'm thinking there's another or is it your just now good
at being a lover
I'm feeling faded, I hate it
but I love you, I just don't understand
I know we had are mishaps
but who doesn't
we need to get back and get right no shiest
If I'm shady then why do I pick up my pen and wright
about you baby
for ever my lady distant lover I'm'a be right here so it
up to you
when you roll threw ill be right here
waiting on you

day get lonely with out you, always been down never
doubted you
but you got my mind so confused
tell me you love me knowing to you I'm nothing
just waiting on the day when I can see you face
and tell you my pain, all these tears in my eyes aint
over nothing
girl quit the tsssh and give me ya real lovin

When is my pain gonna end you feel me knocking
why don't you let me in
do you have no love, maybe it just never was
an illusion for shit's and giggles
do you even miss me? just a lil
what's the but of this joke cause you looking like the
ass
you come in to my life so fast and left the same way
was it that eazy?. if not then why don't you come see
me

left me hurting feeling like no one truly cares
should I be over it maybe just pretend
be like you and keep my feelings bottled in
no baby I want to see you again

day get lonely with out you, always been down never
doubted you
but you got my mind so confused
tell me you love me knowing to you I'm nothing
just waiting on the day when I can see you face
and tell you my pain, all these tears in my eyes aint
over nothing
girl quit the tsssh and give me ya real lovin (x2)
