Stuck in a world where I've grown emotionless,
Just so cold.
Scared to show feelings don't want to give leeway,
Scared to love cause of the he say she say.
I just expect it.... To lose it all in the end.
Past haunted of good memory's. Is this why they
changed?
Cause they envy me... A lifetime of hate towards me.
Will karma come in my afterlife?
Paradise,
I can just imagine. thinking that's why my enemies
haven't took me out.
I'm just stuck in misery many thoughts in my head got
me going nuts.
scared to speak my true feeling and be labeled crazy.
Must be what they want. Don't want to see me on top.
Throwing dirt on my name.
But Calvin Cant be stopped. I just cant believe they put
there dope down
for a few, to talk shit! Its amazing.
They just hating cause they whole crew cant
accomplish what I one mans done,
But now I got a team. Prepare for the take over.

97% OF these fucks use my name for fame. If it wasn't
for that
They wouldn't be in the game. Anit got no shame.
Looking like a bum,
on the corner, begging for change.
Get your own creditability, I got goals! I remember all
the fakes,

the phony all up in my shit. My life! you don't know me.
You just talk to people I barely associate with.
Late nights I light a spliff trying to calm my nerves
(all the drama in the world must be why I'm couscous to
get close to another),
{I concenter myself a lover but everyday I'm at war, a
soldier in gods eyes}.
It Takes one man to change history, I pray please let
me reach the nation,
2012 is coming around soon, heed the word and

change,
cause we headed for doom.
Dreams haunted of a world of chaos and terror,
Waking up alone so what its there to be scared of?
No love. No friends. so, theirs no way to get hurt. the
only promise in life
is to be laying in the dirt.
People calming I'm shady. I am. But in a different
definition.
Just sit back relax and calm your nerves.
No stress
No drama
I try to keep it that way.
giving nothing but love, and still I got a whole army
hating on me.
but fuck yall.
punk bitches.
MAD I MADE IT.
