CHORUS:

Every time our song comes on  
I die a little more I can't listen to the radio  
Because it only reminds me of you  
And how you're gone  
Happens every time...  
every time our song comes on

We used to dance so close  
We used to dance so slow  
We used to kiss, kiss for hours  
And listen to the radio

We used to speak in tongues  
A language only we knew  
I lost the heart...heart of myself  
Baby, when I lost you

CHORUS:

We used to park your car  
On the dark side of town  
In a world...a world of our own  
So deep in the love we found

Why'd I hurt you so bad?  
Why do I do what I do?  
Give anything to take it all back  
And make it up to you

Chorus

BRIDGE: Mister Deejay, show a little mercy  
Please don't ever play that song again  
Because when you do, it breaks my heart in two  
And I remember when...

Chorus
