I should have known my heart is overgrown
Do you risk it exploding all over
Well you better get over this one
Put a load on

The time has come and i believe I've come to
For to tell you for somethings always in the way
Well alright...what now
It's fine to think I'm ready to claim what's mine
Roughly I'll

Crestfallen
Dejected and police coast crush
Daydreaming through the dark days
Club monte on holiday
Witha moon too a hole
Space partners

for me to tell
