It doesn't matter who I was, it doesn't matter where I
been
Your grace is all I'm chasing
It doesn't matter when I wake, it doesn't matter when I
sleep
Your arms are open for me
I am complete
'Cause You said I could breathe
I am made clean
And to You I will sing
You are Jesus, You are Jesus
You are everything I need
You are holy, I am dirty
And in You, I am made clean
You are Jesus
You gear my brain when it's moving backward
You hear my voice when I'm screaming
You felt my pain so long ago
You paid it all just for me
I am complete
'Cause You said I could breathe
I am made clean
And to You I will sing
You are Jesus, You are Jesus
You are everything I need
You are holy, I am dirty
And in You, I am made clean
You are Jesus
I am complete
'Cause You said I could breathe
I am made clean
And to You I will sing
You are Jesus, You are Jesus
You are everything I need
You are holy, I am dirty
In You, I am made clean
You are Jesus
