Rain drops keep falling
Rain drops keep falling over me
Rain drops keep flowing
Take me to where I want to be
Keep falling, falling, calling, rolling
Holding the moment to find you in me
Keep going, going
Giving, owing
Forgiving , forgetting sometimes how to be
And they keep falling rain drops keep falling over me.

Keep trying and trying
Leaving, crying
Asking doubting when I can't see
The sun shining , shining
When you're smiling, smiling
When you don't let me under your skin

And they keep falling rain drops keep falling over me.

Keep waking , waking
Forming, breaking again and again part of my being
Keep walking, walking
running, resting, follow the signs the shadow can bring
And they keep falling rain drops keep falling over me.

Keep loving loving loving, living
Without your love I cannot live
Keep dreaming dreaming
hoping, believing
That life at the ends always wins.
