You see my brain melting and the only thing I tell 'em is, I'm living for the present and the future don't exist. So baby take your clothes off, a chance like this, you may never get to show off, show off, show off what you're talking about. I guess you like to tease, baby, and in reality you don't know 'what I please, baby, blue ball queen, take your fucking seat, baby, ride it out, now, I know you wanna scream baby, I'm better than your next man and if he's swinging I'll get dumber than the next man, cause I don't play, unless it's keys and I'll play all day, you like them keys, we gon play all day, wet dream, fry your brain all day, all day.

I think you lost your morals, girl, but it's ok, cause you don't need 'em while we going in that two floor loft in the middle of the city after rolling through the city with me. I promise you, you'll see, that I'm only fucking twenty, girl, amnesia, put your mind in a dream world. What you doing in the bathroom? I hear noises in the bathroom, baby, it's ok, we can do it in the living room, just some turns in 'em, the only girls that we fuck with seem to have twenty different pills in 'em. They tell us that they love us, even though they want a next man and the next man's bitch want the third man, Eddie Murphy shit, yeah, we trade places, rehearse lines to them and then we fuck faces.

Yeah we know just how to get a buzz, mix it with the hash,
come fuck with us, cause I'm raw, motherfucker, I'm raw.

Love so lost and my niggas mad these bitches can't touch what we got, if they wanted, I'll plug any nigga that'll step, man, I got 'em, yeah I got 'em, till the ending of our credits. Life's such a movie, filmed independent, us against the city, please don't get offended when we don't answer your calls, and if you got a problem come and find us, we can talk, about it, what's good young ho you're about it, got a loft right now, you're inside it, you're inside it, got a girl, the girl likes girls, so watch your back, she gonna make you like girls.
