Telling me I'm the only one  
that you look for  
Baby, it's okay  
If you let me stay  
I won't love any other girl the way I love you  
Baby girl just stay  
I'mma take the pain away  
I'll make you believe it, no  
one can do, what we doing  
Show you that I know what I'm  
doing too, I'll prove  
Baby there's no love like our love  
Baby this our place, lemme kiss your face cause  
Baby there's no love like our love  
Baby I'm your man, just take my hand girl  
Our love, our love, our love, our love  
Our love, love, love, love, love, love, love, love  
Our love, our love, our love, our love  
Our love, love, love, love, love, love, love, love  
Baby hold me, kiss me, I'mma kiss and hold you  
Cause of all the pace  
We don't gotta reset  
Never thought I'd be the one you'd want to  
Give away your heart  
Gotta do my part now  
Baby there's no love like our love  
Baby this our place, lemme kiss your face cause  
Baby there's no love like our love  
Baby I'm your man, just take my hand girl  
Our love, our love, our love, our love  
Our love, love, love, love, love, love, love, love  
Our love, our love, our love, our love  
Our love, love, love, love,  
love, love, love, love  
Break it baby, break it baby, it it it it down  
Break it baby, break it baby,  
it it it it down (It down)  
Break it down, break it down, break it down
