[Verse 1:]

One to get loose, two for the honey
Three with the booze, four cause they money
How many shots does it take to start the game
I can tell by your drink, you've had a long day
Let me break the ice girl what's your name
Can I take all your worried stress away?

[Pre-Chorus:]

Do you always seem to fight 'cause I
Can tell that there aint no tears and I
Can help (help) you through your misery
Hospitality that you need from me
and girl I can hear the pain inside
Your voice, argue every night..
But that's a choice and I can take it all away

[Chorus:]

Let me rescue you
I can see the truth
I can see right through the pain
Let me rescue you, let me fill his shoes
No more tears running down your face
I can take you there I'll fly you through the air
Girl I can be your superhero
Flying through the stars and make light of your
darkness
I can be your superhero
Baby can't you feel it
Power and those spirits and miracles are my specialty
ooh
Girl straight from my comic book
And just one look I can tell
Don't need xrays to see, that you're with me.
