Here I am creating love tonight
Here I am the quintessence of life
I'm the air, the breath of life (x3)
I'm the fire that blazes deep inside
I'm the water that makes u wet
I'm the earth that catches every step

Here I am creating love tonight here I am the
quintessence of life (x2)

The air, the fire, the water, the earth, the quintessence,
the five elements.

Here I am creating love tonight
Here I am the quintessence of life
I'm the air, the breath of life
I'm the fire that blazes deep inside
I'm the water that makes u wet
I'm the earth that catches every step

Here I am creating love tonight here I am the
quintessence of life
