Inspired by my dreamy golden voyages  
To the lands of my deepest desires.

Enter it's kingdom...  
Fear is conquering my body, touch my hand  
My soul of sorrow is blessed  
Cry now for holyness, my flesh turns into dust  
Lying the cold axe upon my naked chest

Fearful eyes staring to nowhere...  
I feel the rainfall that breaks the silence  
Paucity, paucity of love, enlight, see the  
Propensity of my ego to the hands of black  
Lord, within anon I fly, seeing... yarn  
Crock, I'm falling in, sacrament, I  
Drink the conium from the altar

Falling into the fields of silence...  
Concede with fear, the burning swan  
Song, in a sea of tears  
My ancestor ones, ever lost, I find  
Nonentity the nostrum, nonsectarian

Failing from the enormously cataract...  
Into the lake of fire...  
Welcome to the lake, the forest of your  
Dreams, the place of the Nil  
Burn, I'm lost into the silence of the  
Lustrate, my arms are useless and eyes create  
Pictures of my conscious, as my soul turns  
Inside out  
What a bless, what a blaster the experience of  
Pain... to feel inside  
The war, the battle, the flesh  
Which has gone rapped

Soul remains...  
Rotting flesh and hopes a step  
Beyond the threshold of the everlasting temple...  
I cry now for holyness, my flesh  
Turns into dust

Lying the cold axe upon my naked chest  
Sear, I conquer my fear, I love it  
...Yell  
I'm an angel in gold and take my  
Share, eternal's pie

Let my soul fly in memory...  
Cry for the deadly inner flash I  
Had before  
As I creature of the dark, blind  
Useless mortal sense  
As I died I left, I throw my  
Breath and flesh
