Cuz you're here in my heart, I can't deny it baby
Wanna take you higher baby, I still need your love

Love, like a storm I'm coming closer, like we're
supposed to
It sounded so wrong, but it's sure to feel right
We'll be together forevermore

Cuz you're here in my heart, I can't deny it baby
Wanna take you higher baby, I still need your love
Cuz you're here in my heart, I can't deny it baby
I still want you baby, just can't get enough, can't get
enough
The time has come now to wish upon the stars above
It's gonna be you, you're the one I'll be after, forever
and ever
I need your love

Cuz you're here in my heart, I can't deny it baby
Wanna take you higher baby, I still need your love
Cuz you're here in my heart, I can't deny it baby
I still want you baby, just can't get enough, can't get
enough
