### "I Am Jesus"

I am Jesus, this is who I am  
Never died, never been a man  
Stand by me under the stars  
I love you, I envy your human scars

Hold me up, then push me down  
Seize the pain of the clown  
It's a day, I praise the night  
Who said wrong ain't loves the right?

I am Jesus

It's the new, I am the old  
It's the rumour, the untold  
It's the good, I am the mean  
It's the heaven, it's the sin

It's the beauty, I am the beast  
It's the misery of your feast  
It's the never, I am forever  
And forever you are never
