To the end, I'll never know  
Temperatures are rising slow

I came so hard in your mouth  
I saw the future, it was dark  
I know I'm not afraid  
I'm consumed  
And another thing  
I'm still bruised

So it seems you're not my friend  
Anything is better than

I came so hard in your mouth  
I saw the future, it was dark  
I know I'm not afraid  
I'm consumed  
And another thing  
I'm still bruised

Nobody knows what I bring  
Nobody knows  
Nobody knows when I break  
Nobody knows
