Greece

THOUGHTS

(Music/Lyrics: Efthimis)

Sit by me, my friend

Enjoy eternal life

Listen to my words

They might be wise...

Why people cry for the end

Why do they scare for death

While they're believing in

Eternal life which gives them

the chance to rest ... in time ...

Questions've made by

the secrets of my mind

While I'm thinking how I'll be ... dying

"Finishing your life"

"Finishing the pain"

It's a risk to believe what they say

I hear the voices of millions of men

Belong to the past they still remain

Souls in dust, memories craft

Release your thoughts I'll support you

DOMESTICATION OF WILDNESS

(Music/Lyrics: Efthimis)

Nature reveals its warning sign

Rivers and trees helpless they're dying

Hidden from evil seeds all over around

In my kingdom of peace people aren't allowed

See what they've done, destroy the land

And nothing but pain is what they've got

Visions of lunacy with tombs all around

Burning flames desires for chaos

Beyond our sight and all of the evil minds

There where I rest under colorfull skies

The river I hear and my "Gods" appear

With kindful presents, eyes full of tears

Is what I believe, in power of mind

Near to people but out of their sight

Soon, I'll return back to my home

In nature of darkness where I was born

They try again to domesticate my flame

The feeling of wild, as before they tried

Believing in me, in my soul and flesh

Omit the pain, in peace I'll rest

VANITY

(Music/Lyrics: Efthimis)

Lying on my bed, thinking of my end...

Nothing, satisfies me, world's dead

Vanity...

THE PASSAGE

(Music: Christian / Lyrics: Efthimis)

Variety of thoughts, deep within my mind

Memories from the past

Lost in the labyrinth in front of walls I stand

Fairies dressed in white the message is to die

Find the passage, the passage to the light

Lost in the labyrinth of image and thoughts

Die, immortal lie, mortal pain

Damnation of the reign

IN GOD THEY TRUST (Intro)

FOR MY SOUL, WHEN THE DARK FALLS INTO...

(Music/Lyrics: Efthimis)

Horror and agony, darkest brains reign here

Emptiness of "modern" life, sentence me to die

The veils of "black" and "lie" have been fallen

Front of eyes, in our minds, darker than the night

Destiny calls my nature, take me away from here
I won't die, I wanna fight, to build my own illusion
Corruption is not offence, but freedom always is
Creators of despair minds, rules of our lives
For my soul, when the dark fall into...
For my soul, when the dark fall into my heart
IMMACULATE / ENSLAVED BY NEED

(Music: Christian / Lyrics: Efthimis)

"Forcing" now your life
For ending it up in the sky
In the kingdom of your god
Far from earth's "trap"
Face now the end
As your flesh's gone ripped
In the sight of the sinners
Where we all belong for you
Rivers of tears, even Christ
Would have laughed with you
Rotten beliefs surround you with fear
And dust's what you're made of
Nonthinking mass
Being obsessed by immaculation
Away from human needs
Love to "hate" your body
The place where your soul is rest

Temptations, the kinds of nature
Controlled by what's above, the sky
Rivers of tears are falling
Obsessions that torture your life
You're falling apart
In the hell of your god
Avoid the lies
With "sins" for you
My blessings to you

BIRTH (Intro)

CRYING OUT THE FEAR WITHIN

(Music/Lyrics: Efthimis)

Death and life in this world
It's not the romantic thing
Living now for just to die
And after death there's a life
Wishes and hopes for immortal life
But none can see the truth in sight
Failed to live in promise land
Mind and body to live apart ?
Cry now for the end
While you're lying on your bed
With angels upon your head

And demons to eat your flesh
Crying out the fear within
Believe it you not live a dream
No more gospels from above
Telling what's right or wrong
Join the life my friend
Living with us till the end
"Fallen angels" as they say
Is to live your own way
Live your life as a bird, away from the rest
Apart from those who are crying
Begging to survive
Proudly remain the same, even when
You're near the end
You don't have to cry, to go to paradise
