Come round
Come round

All right let's take it from the top again
Rewrite the pieces that ain't fitting in
Bring it back to the ground
Dust it down and sweep the floor
High time to do what ain't been done before

Take a breath and the day comes round
Hold it down and keep it calm
If you can for the sake of things
How do we get through tomorrow everyday
I don't know but we get through it anyway
Another day comes round

Right now we're older than we've ever been
Swan out by dreams that could be happening
Know just one thing that ain't
Tomorrow's coming down the line
Today's been dawning since the end of time

Take a breath and the day comes round
Hold it down and keep it calm
If you can for the sake of things
How do we get through tomorrow everyday
I don't know but we get through it anyway
Another day comes round
Another day comes round
Another day comes round
Oh, come round
