I fly now

Scepto paranoia oh no no
Not for me anymore
My path is free oh so free
Free all the way through the cosmos

Even the biggest mountain
Is nothing for a giant
There is nothing, nothing at all
That time wouldn't destroy
Kiss me baby, I'm not afraid
It's time for the free love again

I fly now

Tomorrow is fine but today is sweet
Life is here and complete
Take my hand and walk with me
Eternal sleep into the sea

I fly now
