I know what you are talking about you fool
I know your language and I can read your mind
I and my hate filled soul
Betrayed and left to die
Alone in space
Now I'm coming back

I'm coming down, I'm coming down
I'm coming down with my great brain expansion

Masterplan of payback
It's gonna be a revenge through time
Your children will know my name

Transformed from ordinary
I'm no longer what I was
I have left the normal world
Now is the most miraculous of the days

I and my hate filled soul
Betrayed and left to die
Alone in space
Now I'm coming back

I'm coming down, I'm coming down
I'm coming down with my great brain expansion

Masterplan of payback
It's gonna be a revenge through time
Your children will know my name

Masterplan of payback
It's gonna be a revenge through time
Your children will know my name
