All cities burnt down
Escape to the forests
Light up a fire to survive
In mind and in soul

Can't tell you everything
Can I open my heart to you
Will you be my friend in spirit
Will you be my priest

Union in the wilderness
Rituals to praise the sun
Homo sapiens and the nature
Stars and the night sky as our priest

Can't tell you everything
Can I open my heart to you
Will you be my friend in spirit
Will you be my priest

Can't tell you everything
Can I open my heart to you
Will you be my friend in spirit
Will you be my priest
