Money and the power
Once you get a little they just want to take you down
'cause
I got the money and the power
Once you get a little they just want to take you down
'cause
We've been going hard for too long

Can't get enough, what is you on?
Really ain't nothing, I could drop that
Wake up in the morning, make it all back

It's nothing, nothing to get it popping
Wanna roll, roll up, up and away
Here we go now
Martin had a dream, I've been dreaming 'bout gold
Tell 'em I just wanna shine and I gotta let it show
Show up on the scene, walk right through the door
Got a nigga on repeat, it's my double up flow
Vibrate the whole building, I ain't ringing through your
phone
Waiting till the smoke clear, can you see me through
the fog?
Fall back, it could go all bad
We be going hard with your ex, so
Tic-tac-tacky motherfuckers must not be here
Life is a bitch, but I bet I get that bitch wet

We, we've been going hard for too long
Can't get enough, what is you on?
Really ain't nothing, I can drop that
Wake up in the morning, make it all back
We, we've been going hard for too long
We, we've been going hard for too long
Money and the power
Once you get a little, they just wanna take you down,
'cause

But I'm ready, ready, so you can tell 'em to bring it on
On a whole other level of high, no phone
Foes all mad 'cause the dough don't fold

Forget about your plans, we ain't leaving till it close
Close to the top, I can barely see the ground
With the whole team here, everybody get around
Look like a parade when we're coming through your
town
One hand to the sky, two feet to the ground
Wait, can't stop till the sun's up
Party everywhere ever since I got my funds up
Pray to God it never run out
Off that loud, burning rubber, need to slow it down

We, we've been going hard for too long
Can't get enough, what is you on?
Really ain't nothing, I can drop that
Wake up in the morning, make it all back
We, we've been going hard for too long
We, we've been going hard for too long
Money and the power
Once you get a little, they just wanna take you down,
'cause

Money and the power
Once you get a little, they just wanna take you down,
'cause
That, that's how it is
When you fucking with me, you should know how it
goes
That, that's how it is
I've got a bottle in my hand and a pocket full of dough

We, we've been going hard for too long
Can't get enough, what is you on?
Really ain't nothing, I can drop that
Wake up in the morning, make it all back
We, we've been going hard for too long
We, we've been going hard for too long
