Sunshine coming through my blinds, I'm living but
Really though, it's never enough
10 milly on, that's a must
Living in california, everybody wanna visit for...

Then roll it up for me when I'm stressed

So the peons can be gone and pee on their hearts
She in the coupe cause she in the neon
Cause she on the bs before we can start
Fuck with a nigga, ride with a nigga
Let 'em know the priority order me
Hennessy, and for my niggas og killa
Call it jason vorhees, boy he,
On his job, boy he sure be havin' them marks on they

Pretty bitches and tyre marks
Let 'em inhale the pipe exhausts
Let 'em reveal how much it cost
For this life controlling my vice
No way hell no, uh uh
If I'm wrong than I wanna be right
You want to be one, to peak on the chart
Sso the peons can be gone and pee on their hearts
Women, weed, weather, it's not my fault that it's 82

And my top peeled off

You might catch me in atlanta looking like a boss
New orleans and then miami
Party in new york
Texas I be screwed up, chi town I be really pimpin'

Just like my drink, the fuck you think

See if you fuck than it's after me

You know her dress, her purse
When you discussed your love for lust
Just make sure you visit here first
