"The Antichrist Anthem"

Visit "[The Antichrist Anthem](#)" on MotoLyrics.com

Sparks of fire grow taller by the wooden pillars
Consume their sanctuary with its godless lunacy
Head for the altar! Onward and start the war!
Burn their lies! Their arrogance shall be burnt to ashes!

I am the blood that stained their wretched bible
I am the madness that corrupts their leaders
I am what makes their wonders turn to rubbles
I am the origin of hatred and terror!

Dance of the fire, a ritual of impurity
Stench of burning crosses, a fragrance of serenity
Their carved prophet is melting by the flaming heat
Their false wisdom shall fall! And so their faith shall follow!

I am the dark that swallows the light of mankind
I am the conjurer of pain and downfall
I am the blade that hunts Christian's head
I am the grudge of all restless dead!

My name is of blasphemy and perversion
My name is the tainted verses of your wisdom
My name is the summoning of pure destruction
Fear me! For I am the death of religions!
