Waste, U make another face  
Just kick the pedals down  
Come on and move it  
Don't make another sound  
I'll putt you to it

It ain't the question "who"  
It is the question "why"  
It's what you're gonna do  
I know you wanna die  
baby kill baby!

[chorus]

God, these feeling  
wounds are healing  
when you're feeling love  
So stop your kneelin'  
Get your healin'  
Hush your god above

Stop, following your dreams  
You hook up with the later  
and so it seams

It ain't the question "who"  
It is the question "why"  
It's what you're gonna do  
I know you wanna die

Wait, for evolution, for evolution  
Hate, this repetition, of demolition  
Wait, for evolution, for evolution  
Hate, this repetition  
So let's start talking now!

[chorus] x2
