

## Nightmare "Diamond Crown"

Visit "[Diamond Crown](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Time is coming for a prince to take the power  
His father the king has ceased to lead  
The prince is in love with the throne  
The king has left him the diamond crown  
And the queen feels jealousy, she's the dark face of  
reality

Look for the diamond crown...

The diamond crown is in a tower  
Find it you're a winner  
And lift your dream higher  
Bring your imagination  
To the place where there's the diamond crown  
And the queen feels jealousy, she's the dark face of  
reality

Time is coming for a prince to take the power  
His father the king has ceased to lead  
The prince is in love with the throne  
The king has left him the diamond crown, diamond  
crown...  
And the queen feels jealousy, she's the dark face of  
reality
