## "Heart Of Fire"

Visit "[Heart Of Fire](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I'm working at the school of life  
Living in a space without any chains  
You'll never face my distant eyes  
And my heart is getting cold, I can't explain

Don't you understand that I'll rise again  
Into a spirit which calls my name

Heart of fire  
Deep inside my chest  
Heart of fire  
Believe in my quest

Heart...reveal my medications  
Fire... recall my revelations

I'm walking on the edge of time  
Living in a circle without any chains  
I am the victim of mankind  
But I will never stand out in the rain

Don't you understand that I'll rise again  
Into a spirit which calls my name

Heart...reveal my medications  
Fire... recall my revelations

Heart of fire  
Fire... fire...
