You walk alone when the night cold  
Searching her face in the falling rain  
You talk to shadows in a final course  
You have a mission that you can't explain

She knows...  
When the skies are changing colours  
She is...  
The victim of a dream

[Chorus]  
Searching...  
The lonely faces in the dark  
Feeling plasure, to kill for him  
Searching... the lonely places in the dark  
Feeling pleasure, to kill for him

You sign the end of your desperate fall  
And sell your soul to this screen  
Marching alone under no control  
And you'll believe that you'll reach your dreams

Midnight...  
You're standing on the edge of time  
Riding...  
A mission you can't feel

[Chorus]  
Searching...  
The lonely faces in the dark  
Feeling plasure, to kill for him  
Searching... the lonely places in the dark  
Feeling pleasure, to kill for him
