I walk on the crests through the valleys of Nar  
Revealing a sacred land  
I will escape this starway to death  
Trying to believe  
Approaching the mountain, the twilight is near  
Touching the sky with my hand  
Beholding the reign, controlling the fear  
Ready to believe

[Pre-Chorus]

Himalaya, you're the temple of all divinities  
Above the skies, you're the kingdom of all prophecies

[Chorus]

[in the] spirits of the sunset, here we are the kings  
reaching the stairs of our dreams  
[in the] spirits of the sunset, here we are the kings  
reaching the final dream

I walk through the mist at the borders of light  
Crossing a no man's land  
I am the heart, a vision divine  
The guardians of Devil  
Setting the links of a new religion  
Giving my life for this land  
I've found the gates of of resurrection  
The way to believe

[Pre-Chorus]

Himalaya, you're the temple of all divinities  
Above the skies, you're the kingdom of all prophecies

[Chorus]

[in the] spirits of the sunset, here we are the kings  
reaching the stairs of our dreams  
[in the] spirits of the sunset, here we are the kings  
reaching the final dream
