It was time to create  
And riding to fame  
And the time is my fate  
So I download a game

It's called " the child's rebellion "... end of the line  
Check the rules for the next addiction.. and save the  
files!

I found a strange connection  
I found a new direction  
Look around, nobody knows what I've found  
I'm so self destructive  
Evil with wrong directives  
Look around, you won't see what I've found

Distant signs of danger  
From the other side  
Do you know this stranger  
This devil in disguise
