A thousand candles in the air  
One by one  
A body count each time I raise  
My eyes to the sun

No rain of understanding falls  
To fill the well  
Centuries and days have gone  
With the ringing of a bell?

Here we are ..... and  
Here we are .....

Can we go higher ? (Love instead of borders)  
Higher ? (We can smile at the future)  
Higher ? In our dreams ? (To believe !)  
(Instead of borders, smile at the future now)

A troop of angels, left and right  
Watch and wait  
Will it happen round the world tonight?  
A simple twist of faith

Let us talk as people do  
Woman and man  
Let us shout out "Peace" again  
In every, every, every land

Here we are ..... and  
Here we are .....

Can we go higher ? (Love instead of borders)  
Higher ? (We can smile at the future)  
Higher ? In our dreams ? (To believe !)  
(Instead of borders, smile at the future now)
